

ABOUT MEMBERS CHOICE

Insurance should be simpler, smarter, and built around members.

Members Choice helps Australian association members access free, personalised insurance quotes through organisations they already know and trust. Powered by AI and supported by a real Australian team, we make it easier to compare cover across health, life, home, car, income protection, travel, pet and critical illness insurance.

WHY WE EXIST

Insurance in Australia is harder than it needs to be.

Finding the right insurance can feel slow, confusing and repetitive. Members are often asked to fill out the same details across multiple providers, compare complex policies on their own, and make decisions without enough support. Members Choice was created to fix two things: how members find cover, and how they get a fair price for it.

WHAT MAKES US DIFFERENT

Built around members. Delivered through associations.

Through Associations

We partner with associations, unions, industry groups and community organisations so members can access free quotes through channels they already trust.

Powered by AI

Our AI does the comparison work that usually wastes everyone's time. Members answer a few simple questions, and our platform builds a personalised quote across the products they are interested in.

Supported by Australians

Technology makes the process faster, but people still matter. Our Australian team is available when members want help reviewing their options or asking questions.

WHO WE'RE FOR

Helping members and associations get more value.

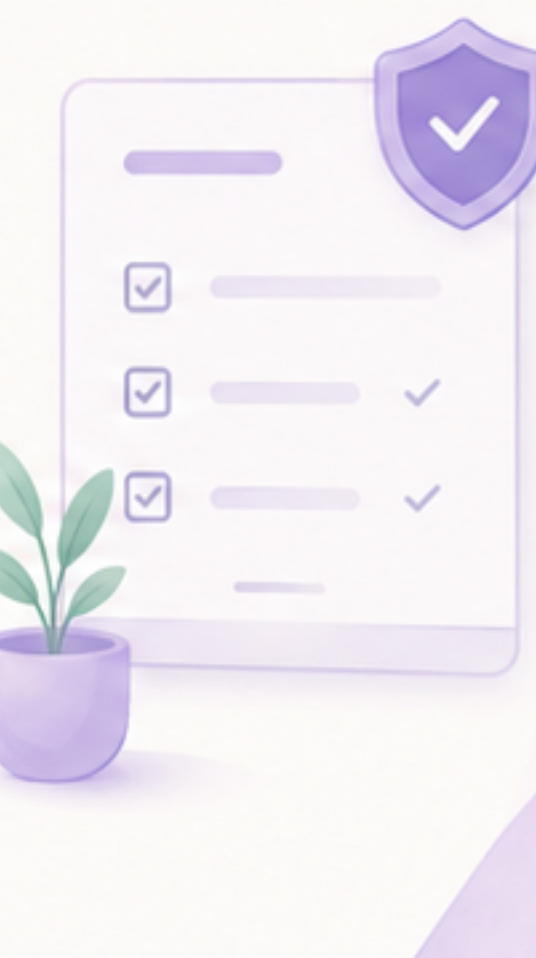

For Members

For Australian association members who want insurance sorted properly, without the runaround.

- Free personalised quotes
- AI-powered comparisons
- Multiple products in one place
- Clear information about options
- Help from a real Australian team
- No pressure to proceed

OUR APPROACH

Fast when it should be. Human when it matters.

We combine smart technology with real people and deep industry partnerships to deliver quotes that are fast, accurate, and built around you.

Free Quotes

Members can get a quote at no cost through their association.

Personalised Results

Quotes are built around each member's situation, not a generic template.

Honest Comparisons

We help members understand their options and flag gaps in existing cover where relevant.

No Pressure

Members choose what works for them. If the quote does not suit, they can walk away.

SMARTER QUOTES

AI-powered quotes, backed by real people.

We use AI to remove the frustrating parts of insurance comparison: repeated forms, slow processes and unclear options.

Our quote tool asks the questions that matter, compares options across our product range, and helps members get a tailored quote quickly.

But AI does not replace people. It supports them. Members can speak with our team before, during or after getting a quote, so they can feel confident about what they are choosing.

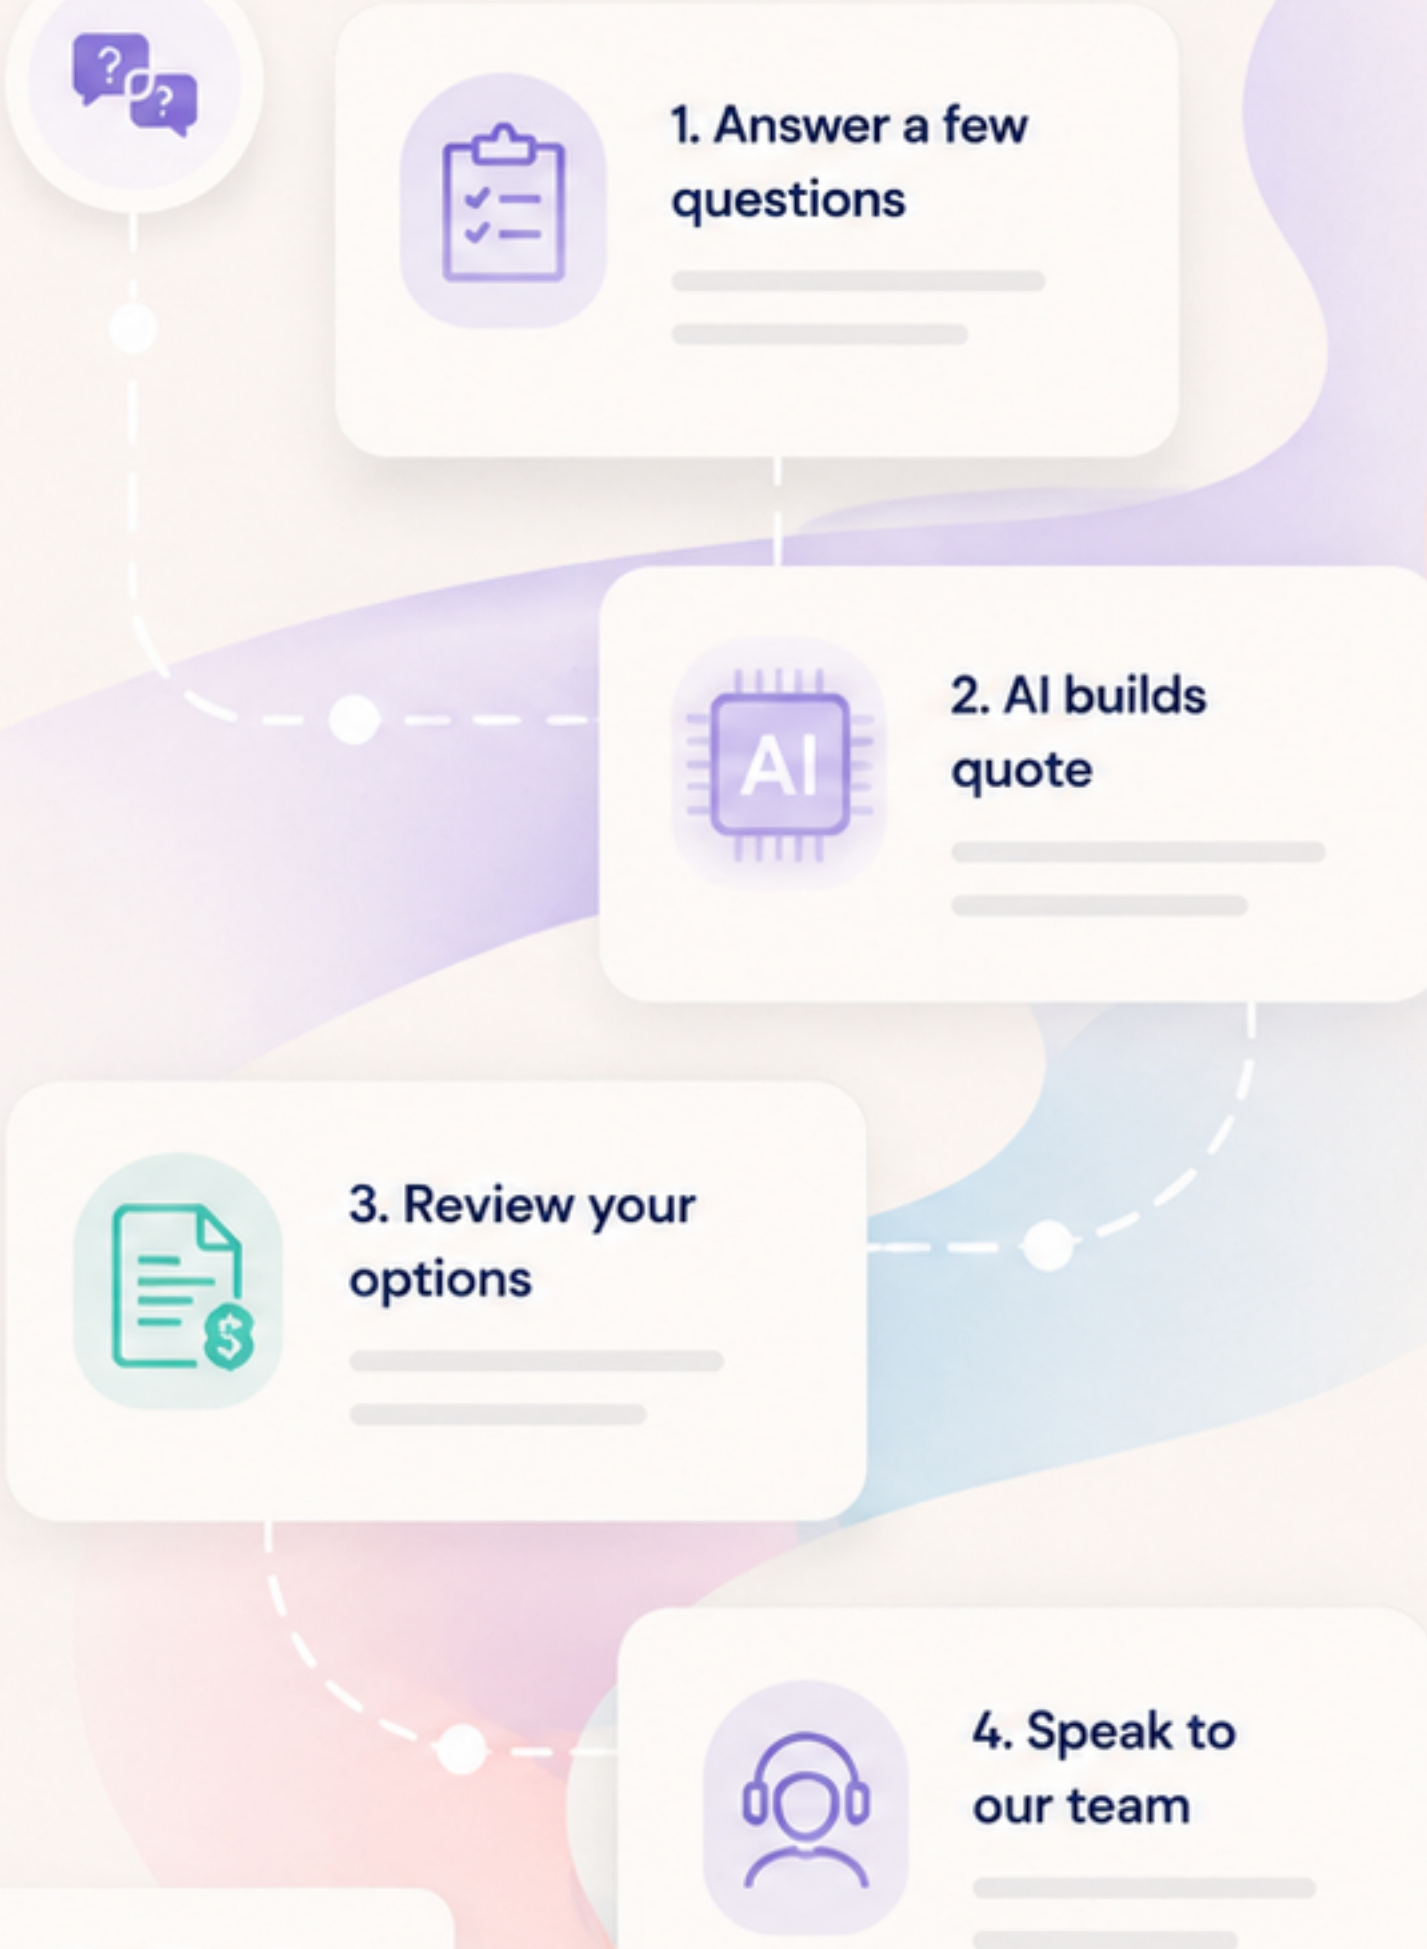

Most members complete a quote in **under five minutes**.

Real people. Real support.
Before, during or after your quote.

WHAT WE COVER

Eight products. One platform.

Members Choice gives members access to free quotes across a broad range of insurance products.

Health Insurance

Cover for you and your family's health.

Life Insurance

Financial protection for the people you love.

Home & Contents

Protect your home and what's inside.

Car Insurance

Cover for your car and peace of mind.

Income Protection

Support your income when you need it most.

Travel Insurance

Travel with confidence whenever you go.

Pet Insurance

Care and cover for your furry friends.

Critical Illness Cover

Financial support when facing life's challenges.
